

Khristopher Reeve Vicente Tabiquero

Caloocan City, NCR • tabiquerokhristopher@gmail.com • +63 960 237 2717
Computer Science Graduate | Machine Learning & Software Development

Professional Summary

Computer Science graduate with experience in software development, machine learning, and web application development. Skilled in Python, Java, JavaScript, SQL, and modern web technologies, with hands-on experience building AI-driven applications, predictive models, and full-stack web solutions. Passionate about developing scalable systems and solving real-world problems through technology.

Technical Skills

Programming Languages: Python, Java, JavaScript, PHP, SQL, C/C++

Frontend Development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Laravel, REST APIs, CRUD Operations

Machine Learning & AI: Machine Learning, Deep Learning, NLP, Computer Vision, Predictive Modeling

Database Technologies: MySQL, SQLite, Firebase, Supabase

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Analytics, Android Studio

Design & Documentation: Figma, Canva, GUI Design, Technical Documentation

Education

2021-2026

Technological Institute of the Philippines - Manila

Bachelor of Science in Computer Science | GWA: 1.70

Awards: Dean's Lister, VPAA's Lister (Multiple Semesters)

Project Experience

Sparse-View NeRF for 3D Reconstruction of Citrus Fruit (Python, PyTorch, NeRF)

- Developed a sparse-view NeRF system for 3D citrus reconstruction using minimal images, improving defect visibility and reducing imaging requirements.

Predictive Modeling of Student Academic Performance (Python, Machine Learning)

- Built a machine learning model to identify at-risk students and support data-driven academic interventions.

FitBuddy: Fitness Companion Chatbot (Python, NLP)

- Developed an NLP-based chatbot for workout recommendations and automated coaching assistance.

Work Experience

LizardBear Tasking Inc.

10/2022 - 07/2023

Technical Support Engineer – Tier 1 | 10/2022 - 07/2023

- Handled 20–30 customer inquiries daily via email and chat, ensuring timely and accurate issue resolution
- Diagnosed and resolved connectivity, login, and configuration issues using structured troubleshooting methods, maintained clear documentation of solutions, improving support efficiency and service quality

UP DRRM-H Web Platform (Web Development Intern)

01/2026 - 04/2026

- Developed a web-based training and e-learning platform, implementing user management, content administration, and responsive interface features.
- Collaborated in testing, maintenance, and feature enhancements to improve system usability and accessibility.
